3. The Invitation to Firms in the Construction Industry to Engage in Settlement of Contraventions of the Act

3.1 The Commission's investigation of the complaints, as well as several other of the Commission's investigations in the construction industry, led the Commission to believe that there was widespread collusion in contravention of section 4(1)(b)(iii) of the Act in the construction industry.

3.2 Section 4(1)(b) provides-

"4. Restrictive horizontal practices prohibited

(1) An agreement between, or concerted practice by, firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if -

(a) it has the effect of substantially preventing, or lessening, competition in a market, unless a party to the agreement, concerted practice, or decision can prove that any technological, efficiency or other pro-competitive gain resulting from it outweighs that effect; or

(b) it involves any of the following restrictive horizontal practices:

(i) directly or indirectly fixing a purchase or selling price or any other trading condition;

(ii) dividing markets by allocating customers, suppliers, territories, or specific types of goods or services; or

(iii) collusive tendering."

3.3 The collusive conduct engaged in, in the context of the Invitation and this Consent Agreement, was collusive tendering or "bid-rigging". Collusive tendering involves particular conduct by firms whereby as competitors they collude regarding a tender resulting in the tender process being distorted. The bid prices and the bid submissions by these competitors as well as the outcome of the tender process is not the result of competition on the merits. "Cover pricing" in this context occurs when conspiring firms agree that one or more of them will submit a bid that is not intended to win the contract. The agreement is reached in such a way that among the colluding firms, one firm wishes to win the tender and the others agree to submit non-competitive bids with prices that would be higher than the bid of the designated winner, or the price will be too high to be accepted, or the bid contains special terms that are known to be unacceptable to

 5
RD

the client. Collusive tendering therefore applies to agreements or concerted practices which have as their object or effect the prevention, lessening, restriction and distortion of competition in South Africa.

- 3.4 In terms of section 2 of the Act, two of the key objects of the Act are to promote the efficiency, adaptability and development of the economy, and to provide consumers with competitive prices and product choices. Section 217 of the Constitution, 1996 calls for a procurement or tender system which is fair, equitable, transparent, competitive and cost-effective.
- 3.5 In addition, the Commission is required in terms of section 21(1) of the Act, *inter alia*, to implement measures to increase market transparency, to investigate and evaluate alleged contraventions of Chapter 2 of the Act, and to negotiate and conclude consent agreements in terms of section 49D for confirmation as an order of the Competition Tribunal in terms of section 58(1)(b) of the Act.
- 3.6 Therefore, in the interest of transparency, efficiency, disrupting cartels and incentivising competitive behaviour in the construction industry and a cost-effective, comprehensive and speedy resolution of the investigations referred to above, the Commission decided to fast track these investigations and their resolution by inviting firms that were involved in collusive tendering in the form of bid-rigging of projects in the construction industry, to apply to engage in settlement on the terms set out in the Invitation.
- 3.7 On 1 February 2011 the Commission issued a media release about the Invitation and published same on its website. In the Invitation, hereto attached and marked as **Annexure A**, the Commission offered firms the opportunity to settle alleged contraventions of the Act, if they would:
- 3.7.1 submit an application in terms of PART 2 of the Invitation;
- 3.7.2 agree to pay an administrative penalty or penalties determined by the Commission as envisaged in paragraph 10.2 read with paragraphs 19-28 of the Invitation; and
- 3.7.3 comply with the requirements of the Settlement as set out in PART 1 and

PART 3 of the Invitation.

- 3.8 This agreement sets out the details of the non-prescribed prohibited practices only, which the respondent is liable to settle regard being had to the provisions of section 67(2) of the Act and the penalty is calculated taking into account only the said non-prescribed prohibited practices.
- 3.9 Applying firms were required to *inter alia* provide the Commission with truthful and timely disclosure of information and documents relating to the prohibited practices and to provide full and expeditious co-operation to the Commission concerning the prohibited practices.
- 3.10 An applying firm could request the Commission to consider its application in terms of the Invitation as an application for a marker or as an application for immunity under the CLP. Firms could also apply for a marker or for immunity under the CLP before making an application in terms of the Invitation.
- 3.11 The deadline to apply for a Settlement in terms of the Invitation was 12h00 on Friday 15 April 2011.

4. Applications by Aveng

- 4.1. Aveng applied for leniency and Settlement in terms of the Invitation, on behalf of Grinaker-LTA, its operating business unit. Grinaker-LTA is a multi-disciplinary construction and engineering entity, conducting business principally in South Africa and focused on selected infrastructure, energy and mining opportunities in Africa.
- 4.2. Aveng applied on 15 April 2011 and disclosed fifty seven (57) prohibited practices. Twenty one (21) of these are prescribed prohibited practices and thirty six (36) are non-prescribed prohibited practices.
- 4.3. Out of the thirty six (36) non-prescribed prohibited practices, Aveng is first to apply in respect of twenty six (26) non-prescribed prohibited practices for Conditional Immunity in terms of the CLP.
